Dear Sir,

I read the account of your Electric Lift in the Institution Journal and should like to receive from you full prices and particulars as there are many business houses here where they could be installed.

It seems to me they would be suitable for Hotels and smaller business houses of about three to four floors if not too expensive ?????? of maintenance.

Some of the rougher parts I presume could be made here to save the expense of carriage.

Awaiting your esteemed reply with full particulars.

I am yours faithfully,
