

LETTER 2

Oct 17th 1903

Municipal Council
City of South Brisbane.

Dear Sirs,

In anticipation of your obtaining Electric Current from the Tramway Coy, for the Baths in Stanley St, I wish to know whether you would allow a branch of these mains, and supply Electricity to a client of mine viz St Helens Hospital for the purpose of lighting and working Xray apparatus, and the price you would charge for same.

I may add the current we should require would be about sufficient to give 3 Horse Power.

Awaiting your esteemed reply

I am yours faithfully,

Alf Geo Jackson
