LETTER 5

October 1903

Messrs Laurence and Hanson
Sydney N.S.W.

Dear Sirs,
Yours of 22nd to hand with telephone lists for which I am obliged.

Re Electric Clocks I delayed in writing as I had expected to receive some printed price lists, which I could have forwarded to you, but they have not come to hand, so I enclose a written list of our retail prices of general stock.

I may add we have good orders to hand here, and are only waiting for stock of 4ft and 2 ft dials.

I wrote your Secretary for ????????????
Mr Knox is at present in Japan, as the business is left soley in my hands and I can promise you a liberal discount in the event of your taking interest in the business. The materials required for installing would also be in your business.
I intend trying to visit Sydney about the middle of the month, when I hope to see you and congratulate you on your safe return.
I am yours,
Alf Geo Jackson
