

LETTER 24

June 19th 1904

Dr S. Jackson  
St Helens Hospital.

Dear Sir,

I regret my delay in forwarding your quotation for an Engine and Dynamo which owing to my inability to come to an agreement with the Electric Supply Coy, for current for Motor, this I hoped to have completed this day and naturally deferred quoting the price would have been considerably higher had I to supply another Engine and Dynamo than my own. They have promised to give me their amended terms in writing tomorrow, but if this does not come to hand I shall take the liberty of quoting for the best and most suitable plant obtainable for your consideration.

I am yours faithfully,  
*Alf Geo Jackson*
