

LETTER 54

ANN STREET.

Oct 22nd 1904

Henry Milnes Esq.  
Bradford, England.

Dear Sir,

Yours of Sept 16th to hand re the British Association Taps. Wanting them urgently I managed to obtain South, sufficient to supply my wants for the present, but will bear in mind that you can supply.

I posted last Mail order for Lathe and parts and hope you will forward at your earliest, as we are practically waiting for the wheel cutting and dividing gear.

I again beg to mention that if it will make much delay or in any way interfere with the accuracy or arrangement of the R 5 lathe, to alter the design to B5, I leave it to your good self whether to send as No 3 catalogue complete.

I have written to Messrs Allison & Co by this mail enclosing copy of order and to expect the goods from you.

I am yours faithfully,  
*Alf Geo Jackson*

P.S. We are just moving into larger premises in Anne St, which in future will be the address.
