

GRIFFIN '121'

Simplified Slide Rule

Instructions for the GRIFFIN '121'

Description

As in all GRIFFIN COMPUTORS, the feature of this Slide Rule is centred around its simplicity of design and ease of use, while still retaining the accuracy required for all types of calculation. This pamphlet covers step by step operation for the following types of problems.

1. BASIC USE OF THE SLIDE RULE.
2. MULTIPLICATION AND DIVISION.
3. CONVERSIONS BETWEEN ENGLISH AND METRIC UNITS.
4. PERCENTAGES.
5. PROPORTIONS.
6. CONVERTING FRACTIONS TO DECIMALS.
7. USE OF THE SLIDE RULE FOR SHOPPING.
8. USE OF THE SLIDE RULE FOR MOTORING CALCULATIONS.
9. SQUARE ROOTS
