

LETTER 65

29<sup>th</sup> July 1907

H. Challinor Esq

Secretary, Royal Society

Brisbane

Dear Sir,

I beg to hand over to you the keys of Lantern & Microscope Box and in doing so wish to say that it would be better that you should keep these at the disposal of the members as I am likely to be away from Brisbane at times when the Lantern is required, and some members have expressed a wish to use the lantern without giving me trouble and taking up my time. You will find everything perfect and in order after Mr. Sutton lecture and I would also add that if at any time you require an operator my firm can supply one at a few days notice.

Yours faithfully

Alf Geo Jackson
