

LETTER 73

24th September 1907

A.E. Dewar Esq

Wellington New Zealand

Dear Dewar,

Yours of the 11th inst to hand re letter to the Bank. This was written on the instructions of Messrs Andrews and McWhirter's who have been very fussy over the matter. Atthow did not seem to trouble himself in the matter at all.

Your Brother was here one day when I was writing and I told him how matters stood and he explained it the same as yourself and I cannot see what makes Andrews & McWhirter so anxious, except from what Andrews told both of us, that having been let in by the other gentlemen they were over cautious. I have no further news in the Clock business at present except to say that I shall be glad to get Heath settled up and on to good business.

Yours faithfully,

Alf Geo Jackson
