

LETTER 91

BRISBANE  
Febry. 11<sup>th</sup>. 1910

Messrs. James Hurl & Co.,  
20 Loftus Street,  
SYDNEY

Dear Sirs,

I beg to confirm my offer to sell my right title and interest in my "Automatic Fire Alarm", and Patent for the Commonwealth of Australia, except Queensland, when issued, for the sum of (£250) Two hundred and fifty pounds cash, and a share without liability say about one tenth of whole in any company formed to run the patent. I undertake to further assist in expert advice electrical or the like to a reasonable extent. The agency for twelve months for Victoria arranged by me in Melbourne to stand good, also the prices offered to the Railway Dept. viz (£1) One pound each Alarm Detector for fitting in building as arranged at present.

The Patent for the Commonwealth has been accepted and is only waiting the prescribed time for sealing, and as the Patent has now been accepted and issued by the New Zealand Patent Office there is no fear of its not going through.

I am,

Yours faithfully,  
*Alf Geo Jackson*
