

LETTER 121

28 th. Sept. 1922

A. B. Chater, Esq.,  
c/o Alex, Wilson & Co. Ltd.  
Malcolm Lane,  
SYDNEY

Dear Mr. Chater,

I had Mr. Barton in today looking at the Bottle Filler and he is very enthusiastic about it and in fact has offered to take a third share in it and find the money for patenting abroad. I believe if we offered it to him at a reasonable price he would purchase it right out for England, America and Europe. What do you think of it? I feel it would pay to accept.

He is waiting your return so let me know as near as possible when that will be as he returns to England at the end of October. He thinks we ought to take patents out right away. How have you progressed, send us word if you have had any difficulties.

Yours faithfully,
