

LETTER 125

65-67 Ann Street,  
BRISBANE  
17 th. November 1922

?? the Commissioner of Patents,  
MELBOURNE

Sir,

In answer to yours P 7889/22 I note the points you raise and have herewith given a full explanation of the operation of the solenoid controlling contacts by the two methods mentioned and embodied them in the Specification as well as in the claims.

I herewith enclose a complete Specification and a true copy with these enlargements to replace those sent previously.

Hoping this will be satisfactory and to the requirement of your letter.

I am,

Yours truly,

*Alf Geo Jackson*
